DV821

L'ufficio ibrido si apre a nuove prospettive ergonomiche, cambiando il modo di lavorare e dando priorità alle persone e al loro benessere. DV821-Knot è un programma d'arredo che esprime un nuovo approccio di vivere gli ambienti di lavoro offrendo comfort, concentrazione, connessione e condivisione, attraverso una varietà di elementi che traggono relazione reciproca dalla morfologia del segno grafico. Lo snodo di collegamento tra gli elementi strutturali verticali e orizzontali diventa quindi il dettaglio identificativo di tutta la collezione. Il tavolo è proposto anche in versione monocolore o con trave impiallacciata in legno di rovere naturale sia per integrarsi armoniosamente in qualsiasi ambiente, formale o informale, che in un contesto pubblico o privato. La gamba è interamente saldata per consentire una rapidità di montaggio e minore impiego di viti. Ogni elemento è progettato per funzionare in modo indipendente o per essere combinato liberamente creando ambienti unici, funzionali e modulabili.

The hybrid office opens up to new ergonomic perspectives, changing the way of working and prioritising people and their well-being. DV821-Knot is a furnishing programme that expresses a new approach to living working environments by offering comfort, concentration, connection and sharing, through a variety of elements that draw reciprocal relationships from the morphology of the graphic sign. The connecting joint between the vertical and horizontal structural elements thus becomes the identifying detail of the entire collection. The table is also available in a monochrome version or with a natural oak veneered beam, to blend harmoniously into any formal or informal office setting, as well as in a public or private context. The leg is fully welded for fast assembly and less need for screws. Each element is designed to function independently or to be freely combined to create unique, functional and modular environments.

SLING

DV300

Quando la semantica degli elementi è in accordo con la funzione.

DV300-Sling è un tavolo circolare studiato per aree break, dalla silhouette elegante e slanciata che unisce la morbidezza delle linee alla fluidità delle forme. L'elemento distintivo è la struttura in acciaio laccato con base a tre razze sul quale appoggia il top. Il tavolo è disponibile in tre altezze e con piani circolari in diverse dimensioni e finiture. È il complemento versatile progettato per essere facilmente disassemblato.

Semantics meets function.

The DV300-Sling is a round table designed for breakout areas, with an elegant, sleek silhouette that combines the softness of lines with the fluidity of form. The distinguishing element is the lacquered steel structure with a three-spoke base. The table is available in three heights and with circular tops in different sizes and finishes. It is the versatile complement designed to be easily disassembled.
